

Draw Things Accessibility Conformance Report

Revised Section 508 Edition

(Based on VPAT® Version 2.4Rev)

Name of Product/Version: Draw Things / 1.20250626.0

Report Date: June 30, 2025

Product Description: An iOS/macOS app for running state-of-the-art image/video diffusion models locally on-device and via cloud compute.

Contact Information: liu@drawthings.ai

Notes: The information in this report is based on details provided by the product developer.

Evaluation Methods Used: Testing is based on product knowledge and developer-provided information.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	(No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion.

Revised Section 508 Report

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Does Not support	This program is for creating visual content (images and video) and requires vision to be operated effectively.

302.2 With Limited Vision	Supports	The app supports system-level accessibility features for limited vision, such as text resizing, high contrast modes, and zoom.
302.3 Without Perception of Color	Supports	The app does not require the perception of color for operation. Information is not conveyed using color alone.
302.4 Without Hearing	Supports	Hearing is not required to use this software.
302.5 With Limited Hearing	Supports	Hearing is not required to use this software.
302.6 Without Speech	Supports	Speech is not required to operate this software.
302.7 With Limited Manipulation	Supports	The software can be operated without fine motor control or complex gestures and supports assistive technologies like Switch Control.
302.8 With Limited Reach and Strength	Supports	The software can be operated via standard inputs available on iOS and macOS and does not require special reach or strength.
302.9 With Limited Language, Cognitive, and Learning Abilities	Does Not Support	The software does not have an officially supported simplified user interface. While community-created scripts may offer simpler workflows, these are not built-in features.

Chapter 4: Hardware

Notes: Not Applicable. This is a software only application.

Chapter 5: Software

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope - Incorporation of WCAG 2.0 AA	See WCAG 2.x section	See information in WCAG 2.x section.
502.2.1 User Control of Accessibility Features	Supports	The application is built using standard native platform components (e.g., UIKit) and respects platform accessibility features.
502.2.2 No Disruption of Accessibility Features	Supports	The application uses standard platform components that do not disrupt system-level accessibility features.

502.3.1 - 502.3.14 (Object Information, etc.)	Supports	The application uses standard native components that expose object information—such as name, role, state, and value—to assistive technologies.
502.4 Platform Accessibility Features	Supports	The app supports platform accessibility features through its use of standard native UI frameworks.
503.2 User Preferences	Supports	The program respects user preferences set at the operating system level, such as Dark Mode and Reduce Motion.
503.3 Alternative User Interfaces	Supports	The software is compatible with alternative user interfaces such as screen readers (VoiceOver).
503.4.1 Caption Controls	Not Applicable	Captioning is not a function required to operate this software.
503.4.2 Audio Description Controls	Not Applicable	Audio Descriptions are not a function required to operate this software.
504.2 Content Creation or Editing	Partially Supports	The software provides tools to add text captions to images. While primarily for another purpose, this feature can be used to add accessibility information such as alt-text. The software does not currently have features for adding accessibility information to generated videos.
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Not Applicable	The software's primary function does not involve the conversion of document formats where accessibility information would be interchanged.
504.2.2 PDF Export	Not Applicable	The software does not create PDF documents.
504.3 Prompts	Not Applicable	Prompts for creating accessible content are not applicable as the output (images/video) does not directly conform to standards like WCAG.
504.4 Templates	Not Applicable	The software does not provide content templates in the sense of document creation.

Chapter 6: Support Documentation and Services

Criteria	Conformance Level	Remarks and Explanations
602.2 Accessibility and Compatibility Features	Does Not Support	Software documentation does not currently describe accessibility and compatibility features.

602.3 Electronic Support Documentation	See WCAG 2.x section	See information in WCAG 2.x section.
602.4 Alternate Formats for Non-Electronic Support Documentation	Not Applicable	All documentation is electronic.
603.2 Information on Accessibility and Compatibility Features	Does Not Support	Support services do not currently provide specific information regarding accessibility and compatibility features.
603.3 Accommodation of Communication Needs	Does Not Support	There is not a specific support contact or process to accommodate communication needs for users with disabilities.
